Objective:

currently I'm eager to obtain the knowledge and tools that enables me to be a leading professional in software engineering.

Intro:

A highly qualified software engineering student. Enjoy solving creative problems and learning about multiple projects. An enthusiastic college student who excels in lab courses, my identity is my passion. Currently, I am a junior student majoring in Software engineering from Bethlehem University. I am always heading towards everything that will give me more experience in the field of coding. As I am planning to continue my Masters degree to get more in depth in coding. Moreover, I want to own a coding company in the future.

ACHIVEMENTS:

1. HTML, CSS, & JavaScript - Certification Course for Beginners, Udemy 2020
2. Python for absolute beginners | Python , 3Udemy 2020
3. ACM Programing Competition, Ministry of Telcom & IT 2019
4. Hackathon, Bethlehem University2019
5. Software engineering Conference, Bethlehem University 2019
6. IEEE Grand Tech Conference, Al-Quds University 2018and 2019

EDUCATION:

8-2018 - Present

Third year of B.A in Software engineering, Bethlehem University

7-2018

General secondary Education examination (injaz) - Bethlehem - Palestine

2005-2018

High school degree ,Terra Sancta College - Bethlehem -Palestine

VOLUNTEER EXPERIENCE :

1. Palestine Medical Relief Society, Bethlehem
2. I participated in Wi'am: the Palestinian Conflict Transformation Center as a leader. Plus, I helped the elderly woman how to use the pc.
3. I volunteered in the orientation and counseling day for new students, Bethlehem University.
